### **SKI & SNOWBOARD WINTER CAMPS**

From total beginners, some that have never seen snow, to young athletes training as part of their school ski or snowboard team. Caspian Khazri's winter camp offers a lively and enthusiastic approach to skiing and snowboard camps in Shahdag

We aim to facilitate an environment for students to develop their skills while enjoying their time on the mountain, making new friends from and sharing valuable experiences with their peers. Our international winter camps are designed to get the students on the snow and keep them there.

Shahdag Ski Schools team of fully qualified ski and snowboard guides takes care of students in groups of 5-10, with full-day guiding, lunch on the mountain and breaks throughout the day. Available and bought as an extra Snow Mobile, 4X4 and Mountain roller coaster are also options for those who want to try a different winter sport.

Our winter camp starts in Baku Azerbaijan with exploring the magnificent city of Azerbaijan, with excursions to historical places and also to modern architectural master pieces.

Typically in Shahdag Ski resort a day at our international winter camp is spent on the mountain and consists of learning new skills in the morning and having an opportunity to practice those skills on different slopes throughout the afternoon, with a hot chocolate break for when the group is feeling tired.

Throughout our winter camp courses, we follow a clear structure for progression, so students are aware of their current levels of performance and their areas for improvement.

At the end of each winter camp trip, we like to celebrate the achievements of each of our students with a prize-giving evening. It is a chance for them to have a final group photo with their guide, receive their certificates and to hear the much-anticipated ski and snowboard race results from the week.
